Subject: Notice of File Closure for Small Mining Project, William Bleazard, Minerals Fork Group Project, S/035/010, Salt Lake County, Utah

Dear Mrs. Bleazard:

On September 11, 2003, we received your request to inspect and close the file for your late husband's Minerals Fork Group Project, located in Salt Lake County, Utah. Please accept our condolences on your loss.

Before your request could be granted, we had to perform a site inspection to verify that there was no mining related disturbance remaining at the site. That inspection was performed today and it has been verified that there is no disturbance left unreclaimed. There was a mining shaft that has been reclaimed by the Abandoned Mine Reclamation Program wherein a bat grate had been installed by that program.

Therefore, the Minerals Fork Group Project permit will now be closed and the file retired. You are hereby released by the Division from further reclamation responsibilities at this site. You are no longer required to pay the \$150.00 permit fee. If you or your family wishes to conduct any future mining related activity in this area, you will need to submit a new notice, pay the Division permit fee, and receive written approval, prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5310.

Sincerely,

Lynn Kunzler
Senior Reclamation Biologist
